PROJECTS

Frame

🔗 <https://github.com/tonyputi/frame>

Tools to book and redirect resources such as Game Provider and Payment Provider to developers environment without requiring access to servers or proxies.

- Used technologies: Docker, Laravel, Vue JS.

Poker Analyzer

🔗 <https://github.com/tonyputi/poker-analyzer>

High performances poker rounds analyzer based on PHP and make use of bit math.

- Used technologies: Docker, Laravel

Wallets manager

🔗 <https://github.com/tonyputi/wallets>

Players wallets manager based on SPA and APIs.

- Used technologies: Docker, Laravel, Vue JS, Sanctum

Lumen Passport

🔗 <https://github.com/nomadnt/lumen-passport>

Lumen porting of famous Laravel Passport (OAuth)

- Used technologies: PHP, Lumen.

Node based microservices

🔗 <https://github.com/tonyputi/node-api-users>

A simple example of node API microservice to manage users

- Used technologies: Docker, Node, Postgres, Mongo DB.

TOOLBOX

POWER SKILLS

Problem solving **Assertiveness**

Creativity **Critical thinking**

Teamwork

Presentation / Public speaking

Time management

Emotional intelligence

Facilitating team work **Responsible**

Collaborative **Transparent**

TECHNOLOGIES

Laravel **Lumen** **Linux** **MySQL**

Nginx **Vue JS** **Backbone JS** **PHP**

Node JS **NPM** **Python** **C** **C++**

Javascript **CSS3** **Go Lang** **GIT**

Docker/LXC **RabbitMQ** **Mercurial**

Upsource **Bash** **Typescript**

Mongo DB **Postgres** **MQTT**

PASSIONS

 **Bicycle**

I love to get lost with my bicycle discovering new places.

 **Music**

Listening all music and learn how to play piano

 **Read**

Reading many books of different kinds

 **IoT**

I like to know how embedded devices work and make some personal project

PROJECTS

uHTTP

[🔗 https://github.com/nomadnt/uHTTP](https://github.com/nomadnt/uHTTP)

uHTTP is a tiny library for Arduino that provide a very manner way to access to HTTP request data

- Used technologies: C, C++, Arduino.

PoV Display

[🔗 https://github.com/nomadnt/PoV](https://github.com/nomadnt/PoV)

PoV is a simple Persistent of Vision display based on Atmel ATTinyX5 chip family build for my son.

- Used technologies: C, C++, Arduino, Platform IO.

MeOS

[🔗 https://github.com/nomadnt/MeOS](https://github.com/nomadnt/MeOS)

MeOS is an open source firmware based to OpenWRT and batman-adv used to build mesh network from small to big.

- Used technologies: OpenWRT, Batman Adv, Bash

PASSIONS

Volunteer

I love to help people with disabilities to improve their life quality
